

Customised corrugated products for
your home and garden. Locally made
for New Zealand conditions.

made for you

Water storage is no longer out of reach for people with small or difficult to access properties.

Custom made to fit your space, the iconic corrugated steel of our tanks is not only fire resistant, but has a virtually unlimited lifetime.

And after a long and useful life, our tanks can be completely recycled. They are good for you and great for the environment.

made to measure

Our products are available in a range of colours and because we're local, they can be custom-made to fit your space*.

Garden beds

Customised garden beds made from high strength steel, with an internal food grade polymer lining for long life protection. Our raised garden beds are easy to install, can be fitted anywhere in your garden.

Our joins are machine riveted, engineered and tested to support the weight of soil and the top edge of our raised garden beds has been formed over to ensure there are no sharp bits.

Your garden bed has a five year structural warranty and is delivered ready to use, with no assembly required. Garden beds are available on request for our South Island customers but will have a longer lead-time as they are supplied from Auckland.

Tanksalot sheds

Tanksalot sheds are built tough for New Zealand conditions. Available in a range of colours, our sheds are custom made to fit any space in your garden.

Ideal for storing garden tools, kid's bikes and outdoor summer toys, Tanksalot® sheds are easy to install and once in place you can choose to either fix the shed to a floor or pour a concrete base inside.

**Tanksalot sheds and garden beds are not stocked in the South Island, but are available on request.*

made to save

We work with you to design smart solutions that will reduce your water consumption and save you money.

Detention tanks

Intense rainfall can overwhelm Council stormwater networks', resulting in flooding and contamination. Stormwater detention tanks are designed to slow the release of water from your roof through a tank.

Most Councils now require all new developments and house extensions to have detention tanks. It's wise to check with your local Council before starting your project.

Retention tanks

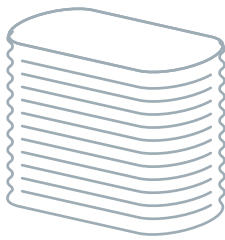

Rainwater is a great source of water for your garden and can also be used in your home for laundry and toilets. The principle is simple, rainwater is collected from your roof and stored in a tank until you need it.

Rainwater retention tanks reduce water consumption, saving you money.

STEP ONE

choose your shape

It's important that you get the tank that best suits your needs. Our tanks are designed to fit perfectly into your space and lifestyle.

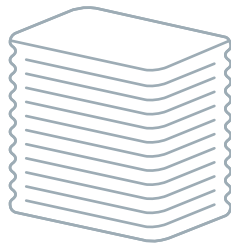

Slimline tanks

Built for narrow spaces, our slimline tanks fit nicely along the side of your home.

Our internal stainless steel cross-bracing is engineered into the tank for both strength and durability, with our new large slimline tanks available in 7,000, 8,000 and 10,000 litres.

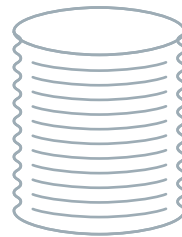

Our slimline tank is the only style stocked in the South Island by the Freeman Group. Other tanks can be ordered, but have a longer lead-time.

Modline tanks

Our modline range has flat ends, creating a smaller footprint than our slimline tank.

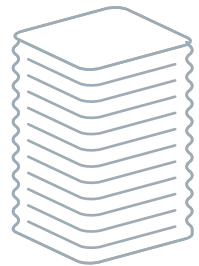

Available in popular colours and sizes up to 10,000 litres, a modline tank can maximise your water storage in a tight space.

Round tanks

Round tanks are ideal for properties where space and access isn't an issue.

Our round tanks range in capacity from 500 to 24,000 litres.

Square tanks

Available in a range of popular colours and sizes, square tanks are cost effective.

These tanks save precious space and maximise the amount of water you can capture.

STEP TWO

choose your colour

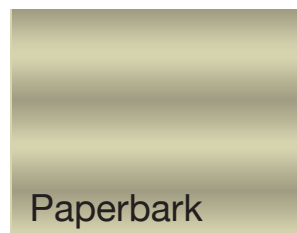

Kiwi made water tanks using high quality Bluescope Steel. Made to measure to work with your space and give you the perfect fit.

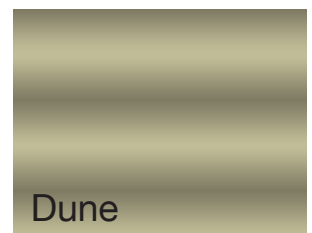

Surfmist

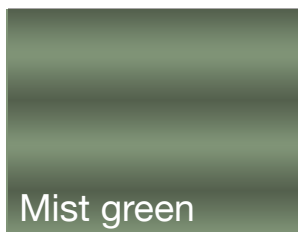

Galvanised

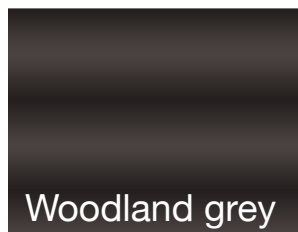

Paperbark

Dune

Mist green

Woodland grey

Monument

Our tanks are available in popular colours, from traditional galvanised steel to a range of fashionable Colorbond® colours, the choice is yours.

Give us a call on 09 427 5281 to chat about your project and discuss the Colorbond® colour that works with your home.

The Colorbond® steel colour swatches shown have been reproduced to represent actual product colours as accurately as possible. However varying light conditions and limitations of the printing process may affect colour tones. Colorbond® colours are available as genuine or painted colours.

STEP THREE

choose your size

Slimline tanks are a great choice for tight spaces, allowing you to maximise the water storage capacity of the area available. Some of our most popular tank sizes are listed below:

2,000 litres*	3,000 litres*	5,000 litres*	7,000 litres*
Width: 700mm Length: 1700mm Height: 1860mm Weight: 65kg	Width: 800mm Length: 2200mm Height: 1860mm Weight: 90kg	Width: 1150mm Length: 2600mm Height: 1860mm Weight: 110kg	Width: 1150mm Length: 3300mm Height: 2020mm Weight: 145kg
336 toilet flushes 2 hours of hand watering 25 washing machine loads	509 toilet flushes 3 hours of hand watering 38 washing machine loads	839 toilet flushes 5 hours of hand watering 62 washing machine loads	1182 toilet flushes 7 hours of hand watering 88 washing machine loads

Slimline tanks stocked in the South Island

1,000 litres slimline: .55 x 1.9 x 1.0 (width x length x height)
2,000 litres slimline: .700 x 2.0 x 1.5 (width x length x height)

3,000 litres slimline: .800 x 2.0 x 2.0 (width x length x height)
5,000 litres slimline: 1.1 x 2.5 x 2.0 (width x length x height)

Modline tanks have flat ends, giving them a modern look and a smaller footprint than the equivalent capacity Slimline tank. Some of our most popular tank sizes are listed below (available on request for South Island customers).

2,000 litres*	3,000 litres*	4,000 litres*	5,000 litres*
Width: 800mm Length: 1400mm Height: 2020mm Weight: 65kg	Width: 800mm Length: 2000mm Height: 2020mm Weight: 80kg	Width: 800mm Length: 2600mm Height: 2020mm Weight: 105kg	Width: 800mm Length: 3200mm Height: 2020mm Weight: 130kg
336 toilet flushes 2 hours of hand watering 25 washing machine loads	347 toilet flushes 3 hours of hand watering 41 washing machine loads	668 toilet flushes 4 hours of hand watering 50 washing machine loads	833 toilet flushes 5 hours of hand watering 62 washing machine loads

It's important that you get the tank that best suits your particular needs. Tanksalot made to measure steel water tanks are designed to fit perfectly into your space and lifestyle.

Traditional round water tanks remain a popular choice, space permitting. Some of our most popular round tank sizes are listed below (available on request for South Island customers).

3,000 litres ⁺	5,000 litres ⁺	8,000 litres ⁺	10,000 litres ⁺
Height: 1860mm Diameter: 1700mm Weight: 80kg	Height: 1860mm Diameter: 2200mm Weight: 105kg	Height: 1860mm Diameter: 2600mm Weight: 145kg	Height: 1860mm Diameter: 3300mm Weight: 170kg
547 toilet flushes 3 hours of hand watering 41 washing machine loads	879 toilet flushes 5 hours of hand watering 65 washing machine loads	1402 toilet flushes 8 hours of hand watering 105 washing machine loads	1775 toilet flushes 10 hours of hand watering 133 washing machine loads

The square shape of these tanks gives these tanks a smaller footprint than the equivalent capacity Slimline or Modline tanks. Popular square tank sizes are listed below (available on request for South Island customers).

2,000 litres ⁺	3,000 litres ⁺	4,000 litres ⁺	5,000 litres ⁺
Width: 1100mm Height: 2020mm Weight: 65kg	Width: 1300mm Height: 2020mm Weight: 90kg	Width: 1500mm Height: 2020mm Weight: 105kg	Width: 1700mm Height: 2020mm Weight: 115kg
336 toilet flushes 2 hours of hand watering 25 washing machine loads	509 toilet flushes 3 hours of hand watering 38 washing machine loads	668 toilet flushes 4 hours of hand watering 50 washing machine loads	960 toilet flushes 5 hours of hand watering 72 washing machine loads

⁺Available as a stocked item in the South Island. ⁺Available on request in the South Island, but not a stocked item.

STEP FOUR

choose your fittings

You can suggest fitting locations when placing your order. Our standard fittings shown below can be attached for an easier installation.

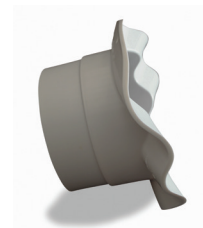

Inlet

400mm inlet strainer with light guard in tank lid.

Outlet

25mm zinc outlet with watermarked brass ball valve fitted to the tank.

Overflow

90mm overflow with mosquito screen fitted to the tank wall.

Inlets	Outlets	Overflows	Positions
SLIMLINE 2 x 400mm inlet strainers with light guards. Positions A & C.	1 x 25mm fitted outlet with watermarked ball valve. Position 6.	2 x 90mm fitted overflows with mosquito screen. Positions 6 & 12.	
MODLINE 2 x 400mm inlet strainers with light guards. Positions A & C.	1 x 25mm fitted outlet with watermarked ball valve. Position 6.	2 x 90mm fitted overflows with mosquito screen. Positions 6 & 12.	
ROUND 1 x 400mm fitted Inlet strainer with light guard. Position 12.	1 x 25mm fitted outlet with watermarked ball valve. Position 1.	1 x 90mm fitted overflow with mosquito screen. Position 12.	
SQUARE 1 x 400mm fitted Inlet strainer with light guard. Position 12.	1 x 25mm fitted outlet with watermarked ball valve. Position 1.	1 x 90mm fitted overflow with mosquito screen. Position 12.	

and accessories

Select from a range of accessories and including the Davey Pumps, filters and water monitors which can be built into your tank*.

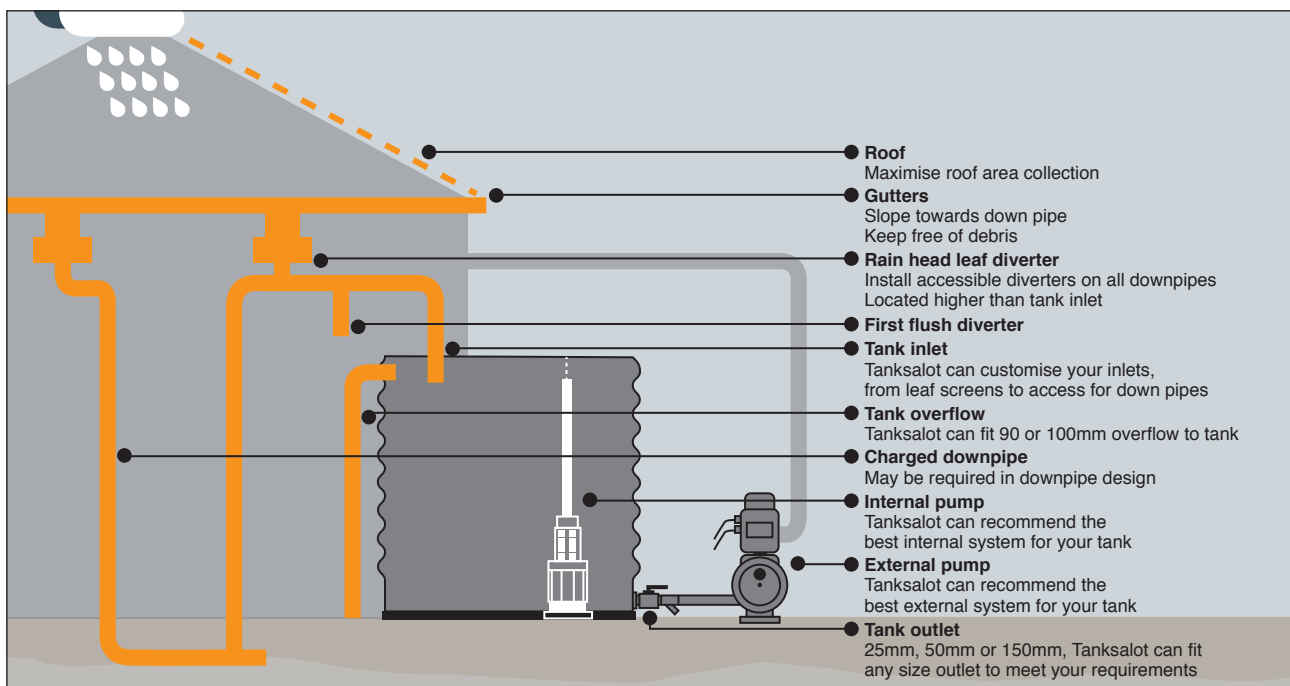

Davey water pumps
Davey offers a variety of water pumps for every situation. Please call us to discuss your needs.
