

INSULATION BOARD

For exceptional thermal performance, Freeman PIR Insulation board delivers the highest thermal performance allowing homes and buildings to achieve premium levels of energy efficiency and with some of the thinnest possible solutions – for achieved R Rating.

AUTHORISED SUPPLIER

PRODUCT SUMMARY

INSULATION BOARD IS YOUR BEST CHOICE

Polyisocyanurate (PIR) insulation is suitable for use in buildings, extensions and renovations, and is one of the most effective insulation materials used in construction. PIR insulation core sandwiched between high performance fibreglass aluminium, embossed foil and glass fabric creates a durable, lightweight insulation board with superior performance and reduced material.

WITH PIR INSULATION BOARD YOU GET:

- PIR insulation delivers an exceptional thermal performance which is over 100% more thermally efficient than many mineral fibre products.
- A range of board options suitable for pitched and flat roofs, walls, and floors including specific products for internal and external solid walls.
- Local manufacture.
- Fast supply.

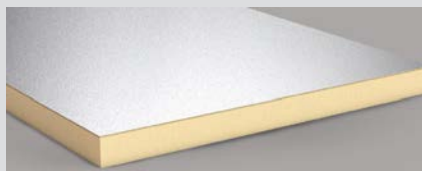

R VALUES & STANDARD SHEET SIZES

Thickness	R Value	Dimensions
40mm	R 1.95	1.2m x 2.4m Panel
50mm	R 2.43	1.2m x 2.4m Panel
60mm	R 2.92	1.2m x 2.4m Panel
70mm	R 3.41	1.2m x 2.4m Panel
75mm	R 3.65	1.2m x 2.4m Panel
80mm	R 3.90	1.2m x 2.4m Panel
90mm	R 4.38	1.2m x 2.4m Panel
100mm	R 4.87	1.2m x 2.4m Panel
140mm	R 6.82	1.2m x 2.4m Panel
